

pack sizes:  
400 g - 1,5 kg - 20 kg

Highly  
digestible

With  
Omega - 3  
and Omega - 6

With  
Taurine  
and Vitamin A

**PREMIUM QUALITY**

## KITTEN CROQUETTES with FRESH CHICKEN and RICE

**Complete pet food for kittens**

A complete feed, developed for kittens (1-12 months) that need a controlled diet, for a balanced growth. Made with the highest-quality chicken, rich in high biological value proteins. Helps maintain healthy vision thanks to the Taurine and Vitamin A content. The MOS (mannan oligosaccharides) and FOS (fructooligosaccharides) act as regulators for intestinal bacterial microflora, while the presence of Yucca Schidigera reduces faecal odour. The Omega-3 and Omega-6 essential fatty acids help to keep the fur soft and shiny. It also contains rice, cooked through an extrusion process, that provides a highly digestible supply of carbohydrates.

**COMPOSITION:** Meat and animal derivatives (fresh chicken 5%), cereals (rice 4%), oils and fats (salmon oil 1%), fish and fish derivatives, vegetables, derivatives of vegetable origin (yucca schidigera 0.1%, fructooligosaccharides - FOS - 0.05%), minerals, yeasts (mannan oligosaccharides - MOS - 0.05%).

**ANALYTICAL CONSTITUENTS:** Crude protein 34%, Crude fibres 2.5%, Crude fat 15%, Crude ash 9.5%, Magnesium 0.09%, Calcium 1.6%, Phosphorous 1.1%, n-6 fatty acids 2.6%, n-3 fatty acids 0.8%.

**ADDITIVES: NUTRITIONAL ADDITIVES:** Vitamin A (Retinyl Acetate) 46,000 IU/kg, Vitamin D3 1,400 IU/kg, Vitamin E (all-rac-alpha-tocopheryl-acetate) 100 mg/kg, Taurine 1,800 mg/kg, Choline Chloride 1,200 mg/kg, Technically pure DL-methionine 1,000 mg/kg, Iron 87.5 mg/kg (Iron (II) sulphate monohydrate 265 mg/kg), Copper 10.5 mg/kg (Copper (II) sulphate pentahydrate 41.1 mg/kg), Zinc 122 mg/kg (Zinc oxide 151 mg/kg), Selenium 0.17 mg/kg (Sodium selenite 0.37 mg/kg), Iodine 1.4 mg/kg (Calcium iodate anhydrous 2.15 mg/kg), Manganese 26.2 mg/kg (manganous sulphate monohydrate 80.7 mg/kg).

**INSTRUCTIONS FOR USE:** Recommended daily feeding intakes, may split into 3 meals (see table). Individual nutritional requirements may vary due to size, age and activity level of the animal. This is a guideline only, and may need to be adjusted as required to maintain optimal body condition. Please transition to new pet food over a period of 1 week. Be sure to have a clean, fresh water available at all times. Pet food only, not suitable for human consumption.

**Recommended daily feeding ration (grams/daily)**

Weight of kitten (kg)	1	2	3	4
Age of kitten (months)	2-4	4-6	6-8	8-12
Daily Feed (grams)	43	54	63	65
