

Kitten

- A complete food** for kittens up to 12 months of age, ideal for healthy and balanced growth. Strengthens the natural defences. Contains F.O.S. and M.O.S., omega-3 and omega-6.
- Energy requirement.** The combination of foods rich in high biological value proteins together with mannan oligosaccharides and fructooligosaccharides meets the high nutritional requirements of kittens.
- Omega-6 and omega-3.** The optimal ratio between the fatty acids omega-6 and omega-3, essential fatty acids that influence inflammation, ensures valid support for counteracting allergic reactions.

USE INSTRUCTIONS Can be made available “ad libitum” or rationed according to your kitten’s weight and age. Make sure that fresh water is always available. It is a good idea to divide the daily ration into 2/3 meals. The croquettes should be made available “ad libitum” to nursing females, since the cat’s requirements vary depending on the number of kittens being nursed.

COMPOSITION: Chicken meat (of which fresh 10%), brown rice (min. 15%), corn, chicken oil, corn gluten, hydrolysed animal protein, beet pulp, whole egg flour, salmon flour, salmon oil, brewer’s yeast, soya hulls, insoluble pea fibre, vitamins, mineral salts, choline chloride, taurine, sodium chloride, DL-methionine, L-carnitine, yeasts (mannan oligosaccharides (MOS) 1 g/kg), Fructo-oligosaccharides (FOS) 1 g/kg, Yucca Schidigera, Rosa Canina, Vitamin C.

ANALYTICAL CONSTITUENTS: Crude protein 34.00%, crude oils and fats 20.00%, crude fibre 2.50%, crude ash 8.50%, calcium 1.50%, phosphorus 1.10%, magnesium 0.09%, Omega 6 essential fatty acids 8.98%, Omega 3 essential fatty acids 1%.

NUTRITIONAL ADDITIVES/KG: Vitamin A (such as retinyl acetate) 26,000 IU, vitamin D3 (such as cholecalciferol) 1,830 IU, vitamin E (all-rac-alpha-tocopheryl acetate) 130 mg, vitamin B1 (thiamine nitrate) 12 mg, vitamin B2 (riboflavin) 12 mg, vitamin B6 (pyridoxine hydrochloride) 7 mg, vitamin B12 0.10 mg, vitamin H (biotin) 0.30 mg, vitamin PP (niacin) 46 mg, vitamin C 200 mg, pantothenic acid 12 mg, folic acid 16 mg, choline chloride 2,500 mg, inositol 15 mg, manganous sulphate monohydrate 100 mg (manganese 32 mg), zinc oxide 210 mg (zinc 150 mg), cupric sulphate pentahydrate 52 mg (copper 13 mg), ferrous sulphate monohydrate 360 mg (iron 110 mg), sodium selenite 0.50 mg (selenium 0.20 mg), calcium iodate anhydrous 2.70 mg (iodine 1.80 mg). **AMINO ACIDS/KG:** L-carnitine 50%: 550 mg, DL-methionine technically pure 8 gr, Taurine 0.23%. **ANTIOXIDANTS:** Rosemary extract.

Rich in Vitamin-C

The food is supplemented with rose hip, a natural source of Vitamin C, known for a long time for its beneficial activity in support of health as it helps strengthen the immune system. Thus your cat has an ally when facing the changes of season and any type of psychophysical stress.

Calcium and Phosphorus

kittens up to twelve months of age require healthy and balanced growth. Dental health is important because correct chewing and swallowing of foods is the first, delicate phase of digestion. The correct calcium/phosphorus ratio ensures harmonious dental development for our small friend.

M.O.S. and F.O.S.

The M.O.S.s (mannan oligosaccharides) and the F.O.S.s (fructooligosaccharides) regulate the animal’s intestinal flora perfectly. In other words, the so-called “good bacteria” found in the last segment of the digestive tract are preserved, guaranteeing excellent digestion and greater wellbeing for our little friend.

Recommended daily ration

months	0,5	1	1,5	2	2,5	3	3,5	4	4,5	5	weight of the kitten in kg
1-3	30	50	65	85							
4-6		40	55	70	80	95	105				
7-12			45	55	65	75	85	90	100	110	

With fresh chicken tasty and appetising

For kittens from 0 to 12 months

Rich in omega-3 and omega-6
Younger skin
