SPECIALITY - tuna and rice

pack size: 4 and 15 kg

complete dog food

For sophisticated and picky dogs

Complete and balanced food for all breeds of adult dogs. It is made with energy-rich selected proteins, and also with fresh tuna of high biological value, which guarantees an optimal ratio between the fatty acids Omega-3 and Omega-6, essential fatty acids that influence inflammation as precursors of prostaglandins (endogenous anti-inflammatories). It contains extruded rice, which has highly digestible carbohydrates that help solve possible intestinal problems. Your friend's skin is also protected by the right amount of biotin and zinc, which will keep it healthier, with a shinier haircoat. Therefore, this food is especially indicated for dogs that suffer from skin diseases, like dermatitis, dandruff, itching, and for dogs that have a light coat. It also contains FOS (fructooligosaccharides), which help regulate the intestinal flora, and Yucca Schidigera, which reduces faecal odour.

COMPOSITION

Cereals (rice min. 5%), meats and by-products, by-products of vegetable origin (beet pulp), oils and fats, fish and fish by-products (tuna min. 4%), vegetable protein extracts, F.O.S. (fructooligosaccharides) 500 mg/kg, Yucca Schidigera 0,1%, minerals.

NUTRITIONAL ADDITIVES
