

LECHAT®

LITTER FOR CATS

SCENTED SEPIOLITE

Scented LeChat is the cat litter that combines excellent environmental properties with a pleasant lavender fragrance, for even more convenient indoor use. It is made from a mineral - sepiolite - which also has the natural property of immediately absorbing liquids deposited in the tray, neutralising unpleasant odours and inhibiting the development of germs and bacteria. **Scented LeChat** emits a delicate fragrance of Provençal flowers, giving a sense of hygiene and cleanliness. It's perfect for domestic use, as it does not stick to the cat's paws and leaves no marks on floors or fabrics. Completely non-toxic, the litter is safe for all the family and can be used in any room. Its totally natural composition means it respects the environment.

NATURAL

ULTRA
ABSORBENT

IT DOESN'T
STICK TO THE
CAT'S PAWS

DUST FREE

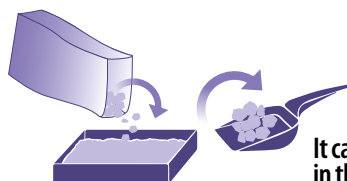

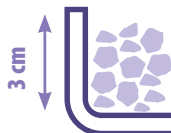

ODOR STOP

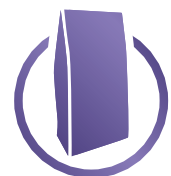

100% MINERAL

INDICATIONS for USE

Pour a layer of approximately 3 cm into the litter tray; for a medium-sized tray (30x40 cm) this will require about 2 kg of product. Remove excrement daily using a shovel and replace the litter completely once a week.

It can be disposed of
in the compost.

10 Liters
20 days use
