

KITTEN – BEEF

COMPLETE PET FOOD FOR GROWING KITTENS

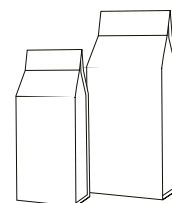

Monge Natural Superpremium Monoprotein* Kitten Beef is a complete and balanced pet food for kittens. Specifically developed for the wellbeing of your kitten thanks microalgae oil (*Schizochytrium sp.*), a natural source of DHA for the development of the neurological and visual system and Taurine for proper heart development. A product formulated with a single animal protein source*, the first ingredient is beef, and characterised by its digestibility and palatability due to the inclusion of fresh meat. The formulation is enriched with XOS (Xylo-oligosaccharide), next generation prebiotics to support intestinal wellness. The inclusion of select ingredients, such as rose hip with antioxidant compounds to neutralise free radicals, and yucca schidigera to limit intestinal odours, is the result of Made in Italy research to support the quality of your kitten's life. No added dyes and artificial preservatives.
