

HYDROLYSED PORK with Tapioca

MONGE VETSOLUTION AN-HYDRO CANINE is a complete dietetic feed highly digestible for dogs, formulated with a single hydrolysed protein source with low molecular weight for the reduction of ingredient and nutrient intolerances; and with selected carbohydrate sources such as tapioca, which guarantees a low glycaemic index. The formulation is characterised by the inclusion of prebiotics Xylo-oligosaccharides (XOS) to preserve the intestinal microbiota, **live probiotics *Limosilactobacillus reuteri* DSM 32203 for stabilising the intestinal flora and postbiotics (*Limosilactobacillus reuteri* NBF DC PRO inactivated bacteria) for a balanced immune system. These ingredients, together with the balanced amino acid profile (essential and non-essential amino acids), positively influence the intestinal microbiota by promoting the proliferation of lactobacilli, bifidobacteria and the increase of butyric acid in the intestine.

COMPOSITION: Tapioca (35%), hydrolysed pork (28%), vegetable oil (maize oil)*, pea fibre, fish oil (salmon oil)*, hydrolysed pork proteins, mineral substances, Xylo-oligosaccharide (XOS 0.4%), inactivated bacteria and parts thereof (*Limosilactobacillus reuteri* 500mg/kg).
