LECHAT®

# EXCELLENCE

ITALIAN SUPERPREMIUM

## NATURAL CAT LITTER

## 100% ITALIAN BARLEY

**Lechat Excellence 100% italian BARLEY** eco-friendly cat litter is designed to meet your cat's needs. Made of 100% Italian barley, it eliminates unpleasant odors of cat urine, thanks to its plant- and mineral-based active principles, which break down the molecules responsible for the smell. Dust-free, Lechat Excellence eco-friendly litter cares about your cat's respiratory system and prevents irritating allergic reactions, making it is also suitable for kittens. It does not stick to paws, ensuring comfort for your pet and avoiding spreading litter around the house. It has excellent absorbent and clumping properties: it thickens on contact with liquid, creating a ball which is easily removed. Highly eco-compatible and with a low environmental impact, it is ecological and can be disposed of in the organic bin or - in moderation - in the toilet. This eco-friendly litter is healthy and hygienic for your cat, practical and easy to dispose of, while respecting the environment and keeping impact low.

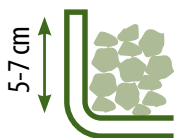

◆ CLUMPING  
◆ ODOR STOP

◆ DISPOSABLE IN THE COMPOST  
◆ VEGETAL

◆ ECOLOGICAL  
◆ ORGANIC

### INDICATIONS FOR USE

Fill the cat's litter tray with a layer of about 5/7 cm of Lechat Excellence according to your cat's requirements. Remove clumps and solid waste and add more litter. Soiled litter and solid waste can be disposed of in the toilet or compost heap.

It can be disposed of in the compost.
